- <u>Name:</u> Emergency Ambulance Service.
- <u>Description:</u> Ambulance plays a very crucial role when an accident occurs on the road network or in case of any medical emergency and the need arises to save a human life. manual booking of an ambulance at times of emergency can take away precious time as it is a time-consuming process. furthermore,the delay caused due to the heavy traffic congestion in between the pickup spot and the hospital facility may increase the risk of death for the victim. The system proposed here will help the user book an ambulance easily in an instant.
